<p>Fixe rave rail 1600mm for UPC  Fix rave rail, 1600mm high (approx.)  (Instead of 1400mm high standard folding rave rail).  ONLY valid with UPC. Not compatible with OL ExN, satellites, underground tailgate adaptations or subframe 400mm for GNC chassis.</p>	064100	New option (NC0467)	CE Markets
<p>Pack on the move option.  It allows to finish the packing cycle even if the vehicle starts to move, instead of stopping the mechanism when a gear is engaged.  In case of closed system, all packing movements can be carried out.  In case of open system, only movements with sweeper in the upper position can be carried out.  PTO has to be able to work out of neutral position, otherwise it will not be able to finish the cycle with a gear engaged.  <b>PAY ATTENTION THAT:</b></p> <ul style="list-style-type: none"> <li>• "Pack on the move" option has to be validated with the chassis specifications (engine torque) and its suitability has to be studied case by case. This checking is important for all types of chassis, but a special attention has to be paid for GNC chassis.</li> <li>• Engine stall could happen depending on driver skills to start drive when also engine torque is requested from compactation, mainly when chassis engine torque is in the limit to support POM compactation AND start driving torque demand.</li> </ul> <p><b>CONDITIONS FOR POTM OPTION:</b>  NOT AVAILABLE with IVECO chassis.  NOT AVAILABLE with manual gearbox.  Continuous PTO preferred. In case PTO is not continuous, refer to NC0510.</p>	052020	TEXT MODIFIED (Included conditions for this option)	CE Markets / Mercados CE

<p>Pack on the move option. It allows to finish the packing cycle even if the vehicle starts to move, instead of stopping the mechanism when a gear is engaged. In case of closed system, all packing movements can be carried out. In case of open system, only movements with sweeper in the upper position can be carried out. PTO has to be able to work out of neutral position, otherwise it will not be able to finish the cycle with a gear engaged. <b>PAY ATTENTION THAT:</b></p> <ul style="list-style-type: none"> <li>• "Pack on the move" option has to be validated with the chassis specifications (engine torque) and its suitability has to be studied case by case. This checking is important for all types of chassis, but a special attention has to be paid for GNC chassis.</li> <li>• Engine stall could happen depending on driver skills to start drive when also engine torque is requested from compactation, mainly when chassis engine torque is in the limit to support POM compactation AND start driving torque demand.</li> </ul> <p>CHOOSE THIS OPTION IF PACK ON THE MOVE GOES TOGETHER WITH ELECTROCLUTCH (022020 or 022030). <b>CONDITIONS FOR POTM OPTION:</b> NOT AVAILABLE with IVECO chassis. NOT AVAILABLE with manual gearbox. Continuous PTO preferred. In case PTO is not continuous, refer to NC0510.</p>	052021	TEXT MODIFIED (Included conditions for this option)	CE Markets / Mercados CE
<p>Road LED lights in the lifter. DIN frame without road lights and prepared for an auxiliary lifter with its own road lights. Available for configurations with Terberg OmniDEKA with integrated LED lights, in addition to the selected DIN frame. <b>ONLY if Terberg lifter is ordered with "lower lights with load control option".</b></p>	169020	TEXT MODIFIED (Included conditions for this option)	CE Markets / Mercados CE
<p>Tailgate reinforcement 6mm - EURODUR 1000 Tailgate hopper constructed with 6mm thick floor Eurodur 1000 instead of standard 8mm Hardox 400. Available for OLW. Not available for OLN or HCT.</p>	050040	TEXT MODIFIED (Included Eurodur type)	CE Markets / Mercados CE

Electromagnetic clutch. Electric magnetic clutch mounted between PTO and hydraulic pump. It allows to connect the pump from the PTO only when the collector needs power. In case power is not need, pump is disconnected from the PTO. Only with continuous PTO.	022020	TEXT MODIFIED (Deleted restriction for only FBM)	CE Markets / Mercados CE
<b>OLYMPUS MINI</b>			
Intercom VISION TECH. Communication system between the cabin and the rear part of the RCV. Intercom brand VISION TECH.	2115020	New option	CE Markets
Green Mode. "Green Mode", specially designed for paper transportation. The ejector plate is always in the frontal part of the body, therefore, there is no compression. Indicated for paper collection. There is a sensor in the ejector plate and packer mechanism is not working if ejector is not in front.	2104020	New option.	CE Markets
Detec eject front/GreenMode. Stop compact. eject front. Stop compaction if ejector is in front. There is a sensor in the ejector plate and when the ejector is in the front, the compaction mechanism stops, because the body is full.	2104030	New option.	CE Markets
